

# CLIMATE NEUTRAL

MEASURE  
REDUCE  
OFFSET **NOW**

# PLEDGE

12 December 2019

To:  
Executive Secretary  
United Nations Framework Convention on Climate Change (UNFCCC) secretariat  
Bonn, Germany

In joining stakeholders from around the globe that have promised to effectively help implement the Paris Agreement to accelerate the transformative change needed to reach greenhouse gas (GHG) emission neutrality (i.e. climate neutrality) in the second half of the twenty-first century, while also supporting the achievement of the Sustainable Development Goals,

I am pleased to confirm that SNOW PR will strive to become climate neutral through its commitment to Climate Neutral Now, to support global society in achieving climate neutrality<sup>1</sup>.

In signing this pledge, I also commit SNOW PR Events & Communications to undertake the following in becoming GHG emission neutral for the selected GHGs<sup>2</sup>: Carbon dioxide (CO<sub>2</sub>)

1. Measure (quantify) our greenhouse gas emissions;
2. Reduce those emissions through own action;
3. Compensate any remaining emissions by offsetting, including through use of Certified Emission Reductions (CERs).

SNOW PR will promote our efforts to achieve climate neutrality and its participation in Climate Neutral Now. It will also provide regular updates on progress under this pledge.

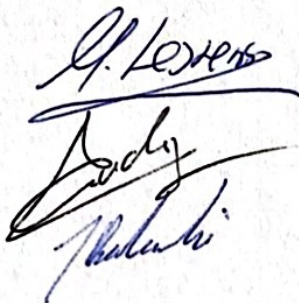

SNOW PR makes this pledge starting from 01/01/2020 – 31/12/2023.

SNOW PR will be afforded recognition for our effort in striving towards climate neutrality under Climate Neutral Now.

Sincerely,

Jacek Będkowski, Marta Lesiewska, Andrzej Lesiewski

<sup>1</sup> The Climate Neutral Now initiative is managed by the United Nations Framework Convention on Climate Change secretariat.

<sup>2</sup> Include here the list of gases that you pledge for. It can be all of them or a sub-set. You can select the gases from the options already mentioned in the text. Organizations should include all gases for which they have material emissions.
